OFFICIAL

FLAGS AT HALF STAFF: The flags of the United States flew at half staff on the Kennedy Space Center on September 11, Patriot Day, as directed by 36 U.S.C. Sec. 144, in honor of the individuals who lost their lives as a result of the terrorist attacks against the United States that occurred on that date in 2001. (TA-G)

OIG: The Office of the Inspector General is the focal point within NASA for conducting audits and investigations to promote economy and efficiency and to prevent and detect fraud and abuse in NASA programs and operations. The OIG receives and investigates complaints or information about inefficiencies, mismanagement, or gross waste of funds; possible violations of law, rules, or regulations by NASA employees, contractors, or others; or substantial and specific danger to the public health and safety. The Inspector General will not disclose the identity of a person who provides such information without that person's permission, unless the Inspector General determines that disclosure is unavoidable during the course of investigation. NASA employees are protected by law from reprisal for making complaints or disclosing information to the Inspector General. At Kennedy Space Center, call: 867-4714, or call toll free: 1-800-424-9183, 24-hour answering service, or write: NASA Inspector General, P.O. Box 23089, L'Enfant Plaza Station, Washington, DC 20024. The Associate Administrator for Public Affairs has requested all NASA centers use only the printed NASA letterhead stationery. "The use of computer file NASA Insignias to custom design stationery provides opportunities for image manipulation and standards degradation which will adversely reflect the professional image of the Agency." If not approved for specific applications, electronic images of the NASA Insignia ("meatball") should be removed from computer systems. (TA-E1)

GRAPHICS/PUBLICATIONS: Before you begin any work for publication, consult the JBOSC Graphics Department. Design lay out must be approved by the CMR prior to printing. Many print request have to be reworked because of problems with alignments, reductions, and postscript formats. Graphics has electronic transfer capability, a proven method for first quality prints directly from the original, compared to low density reproductions from copied artwork. For information, call 867-3838. For your convenience, JBOSC Graphics has two additional offices located in the O&C Building, Room 1152, 867-7419; and, in the OSB Building, Room 6204, 861-3814. KSC/CCAFS HEALTH EDUCATION & WELLNESS PROGRAM (HEWP)

<http://hewp.ksc.nasa.gov>

SEPTEMBER 2006 POLLUTION PREVENTION: In our fast-paced lives, we tend to disregard many things. Unfortunately, one of the things we disregard is our environment. Our American lifestyle seems to give us almost no choice but to incorporate cars, fast food, disposable items, newspapers, air conditioning, household appliances, and many other items into our daily routines. Unfortunately, what we gain in ease, safety and comfort from using these items, we lose in the frustration of having to deal with the health problems that are directly related to the pollution we have put into the environment. The September 2006 packet addresses pollution education and prevention.

Hardcopies of the packet will be available at all medical and fitness facilities. If you or your department/organization would like to be added to the monthly packet hardcopy distribution list, please call Kris Calderon at 867-3414.

****HEALTH EDUCATION INFORMATION TABLE**:** The monthly health education table will be set up in the MFF cafeteria on September 7th from 11:00 am to 1:00 pm where HEWP staff will distribute the pollution packet and related information.

***NEW EDUCATION SEMINAR SERIES*:** The Health Education and Wellness Program (HEWP) presents a new series of seminars for spaceport employees dealing with diabetes either personally or through a family member. The purpose of the series is to educate the workforce about diabetic issues particularly in light of the increasing incidence of diabetes.

The first diabetes education seminar will be on Diabetes in the Workplace. The seminar will be held on Wednesday, September 20, 2006 from 11:00 am. -12:00 noon in the Training Auditorium (located between HQ & O&C buildings).

As a guest presenter for this seminar, the HEWP will host a diabetes educator from the Parrish Hospital Diabetes Education Program. The seminar will cover an introduction to diabetes management highlighting issues such as glucose testing and other management methods in the workplace. Supervisors are also encouraged to attend.

***NEW EDUCATION SEMINAR SERIES*:**

To be placed on the Diabetes Interest Group e-mail listserv, please e-mail Kris Calderon at Kristine.Calderon@jbosc.ksc.nasa.gov Listserv members will be sent information from the diabetes education series seminars along with other information and announcements pertaining to diabetes.
